

```
main()          /* Core component of an ACE */
{
    Intel_init(); /* Perform internal initialization */
    ix_init();    /* Call user's initialization function */
    Intel_event_loop(); /* Perform internal event loop */
    ix_fini();    /* Call user's termination function */
    Intel_fini(); /* Perform internal cleanup */
    exit();       /* Terminate the Linux process */
}
```
