```
ix_init  (  ... , ix_ace **app , ... )
{
        struct myace  *ap;      /* Ptr to programmer's control block      */

        ap  =  malloc ( sizeof ( struct myace ) ) ;
        *app = & ap->ace ;
        ix_ace_init ( & ap->ace ) ;

        /* Other initialization code goes here... */
}
```
